

## 2021 Representative Report, Friends Peace Teams

I am grateful to SCYM for its continued support for Friends Peace Teams (FPT) and myself as a representative to FPT.

FPT drew on its already wide experience with online international communication to amplify its connections with its partners and colleagues around the world during the pandemic. Our colleagues world-wide also continued in-person work where permitted. Several new programs were developed: the first online AVP workshops in Spanish offered by Peacebuilding en las Americas; online Towards Right Relations with Native Peoples and Friendly Book Collaborative offering literacy resources free in several languages, and the Power of Goodness materials and workshops were more widely distributed and made available to people through the Internet.

Work in Africa, Asia-Pacific Region, Latin America is so varied and expanding that it is difficult to summarize. We invite Friends to spend some time on our inspiring website: [FriendsPeaceTeams.org](http://FriendsPeaceTeams.org) to see the stories and share our journeys.
